

Jitsi Live Class Addon

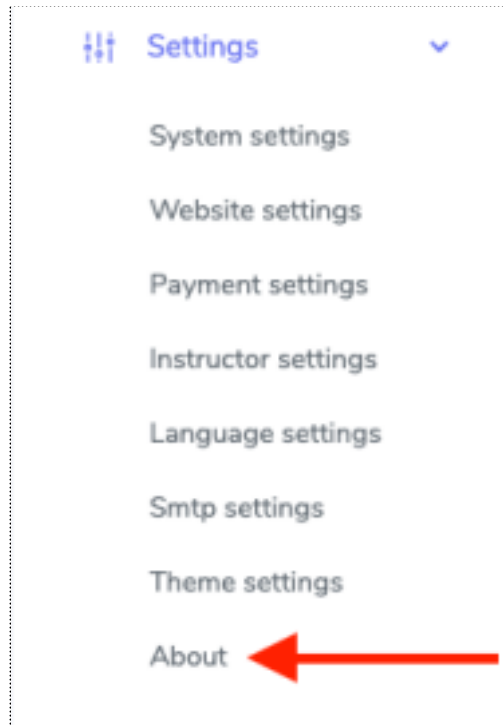

Academy LMS

User Guide

Copyright 2021 Creativeitem. All rights reserved.

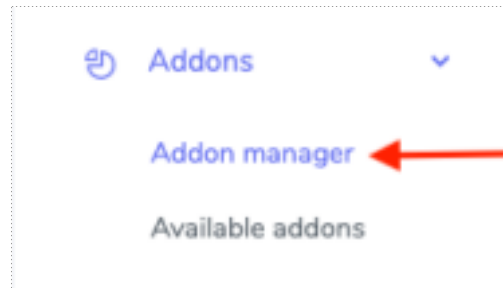

Addon Installation:

1. Before starting the installation process, we would suggest you check your application version. It has to be v5.2 or greater than v5.2. For checking the application you can move to the **About** section from the **Settings** menu.

2. If you are running the mentioned version, then you are ready to install this add-on.
3. First download the add-on you want to install on your application from Codecanyon
4. Unzip the downloaded file.
5. You should get Two folders inside. One is for documentation and the other is for the addon file.
6. You do not need to change anything. Like renaming, removing, or something else.
7. Now get back to your application. Login as Admin role. After logging in you will be able to keep following.

8. From the left navigation menu, Go to **Addon Manager** from the **Addon** section.

9. You will find a list of addons you have so far.

10. Click on the “**Add New Addon**” button on the top. You should redirect to an upload addon view.

11. That view will contain a single field called “**Upload Addons File**”. Just upload the “**jitsi-live-class.zip**” file.

12. After that hit the “**Install addon**” button.

13. You should get a success message notification and you can also see your installed addon on the “**Installed Addon**” list below.

Addon Usage:

You will find the Jitsi live class section on the Course manager section.

1. You have to enter a live class password to configure the process. Also, you can enter your live class schedule and some note about the class.

COURSE MANAGER
